THEIS HAIR WASH has been prepared by us for the last 20 years. Its sale is steadily incressing in India, the Straits and Japan. It possesses all the qualities of a Hair Oil or Pomade without their stickiness. It induces a healthy action of the scalp and nourishes the Hair. Dandruff never appears whilst it is in use. It contains none but the best ingredients, and the greatest care is taken in the compounding. When the Hair falls off after

to be rubbed into the roots of the Hair.

From its great nourishing power on the follicles it may in time cause Hair to return to its natural color; it, however, does not contain a particle of any dyeing ingredient. Using it constantly will most orriginly prevent the Hair falling. It is cleanly in use, the smallest quantity sufficing. It has no sediment, and therefore requires no shaking.

There was no Holy Communion every Sunday, exc pi speech-making and no formal declaration of the opening of the Baznar. The scene presented by the three rooms in which the goods were laid out was and fourth Sundays at the conclusion of pretty in the extreme. The walls were the Parade Service. [A Voluntary Service | decorated with flags of all nations, the is held in the Gartison Theatre at 7.45 windows hung with similar drapery; the tables were ranged round the walls on another side, and if there was a little body was glad to see so many present. Starting with the flower stall, to which reference has already been made, (that which stands on the right hand side on entering) the ladies who had kindly consented to take charge of the various mines of wealth represented by

ware were as follows:-Lady Hennessy,

Mrs Anton. Mrs Coxon, Mrs Clouth

Mrs MacEwen and Mrs Jenning Mrs Crawford and Mrs Fraser-Smith Mrs Noronha, Mis Flewing and Mrs Moore,

Mrs Gonsalves, Mrs Heermann, Mrs Wharry,

Mrs Keswick. Mrs Coles had charge of the Refresh. ment Stall, and Capt. Francis and Mr. Moore lured the victims to the Gallery of Art, and collected the dollars from the hands of the mesthetic as a consideration for the privilege of entering beyond the veil within which were exhibited a rare and valuable collection works of art especially lent for the occasion. In this department due notice is given to visitors that they are particularly requested not to injure or deface the works with their sticks or umbrellas, and they are advised that a star affixed to a work

denotes that the same has been sold. As to the various articles which are for sale in the various rooms over which the ladies named preside, we can only say that the variety on the tables is charming. There is much less of the utterly useless and for-no-reason-desirable class of article than is usual in such sales. Toys there are in abundance, dulls in profusion, and a fair sprinkling of the thousand and one little articles of more or less utility and beauty which go to make up, in 9 p.m. - Meeting of Perseverance Lodge. | word, a Bazaar, A very large proportion of the whole work (ince, stitching, Goods per Gaelic undelivered after this baby cluthes, cushions, mats, cosies, fancy work, et hoc genus omme) has been done by those on whose behalf the present offering of the goods to the public is now made, Indeed the affair is much less a Fancy Bazaar, as the term is usually understood, than an annual sale of the work of the beneficiaires of the Institution. Where all was so elegant and so equal it would be unwise to particularise. Only a fool could rush in to criticise a gathering where so many angels tread. Only would we write that the work of the girls shows a higher taste or idea of what has to be done and a much more perfect knowledge of howeit has to be done than have ever been evinced by any previous annual sale of the work of those residing within the pale of this asylum. lace work and fancy work especially the samples displayed called for warmest encominms. There was a happy feature observable in a huge lucky bag (" all prizes; no blanks") over which Mrs Moore kept word and was ahly assisted by a bevy of beautiful little maidens, who did with much grace, energy and enthusiasm the work set for them to do, alike as regards disposal of tickets and the awarding of the more or less valuable prizes to the various ticketholders. A good word ought to be said for the many who have contributed some one thing, some another for sale But as the list would include all who have been seked and many more, and as it is so thoroughly manifest that their reward has been gained in the pleasure of At Shaughai, on the Brd Dec., the Wife of giving, that they liave been doing good only for its own sake and would blush H. Baken, of a Daughter, prematurely. to find it fame, we forbear from enlarging on that point. Nothing can be said yet as to the financial success of the Bazaar, but we have every reason to believe that this worthy effort on belialf of Christian Charity will not go without an imme-

diate and substantial reward in a largely increased balance in favour of the Asyle de la Sainte Enfance, de Augustin Militaria One word more may be said as to the Art Exhibition: - A separate room apart from the main building, is specially devoted to the exhibition of the valuable. WE note from the last number of the Broad Arrow that Major John Ashton Papillon, of the Royal Engineers, has been gazetted Lieutenant-Colonel vice Brevet Colonel J. P. Cox, deceased, the commission bearing date of 24th September, 1880. Lieutenant-Colonel Rapillon has many friends in the Colony to whom his advancement will be welcome intelligence, this being his second term of service on the China station.

REFERENCE to the Home comments upon the accident to the Iron Duke, and the repairs rendered necessary by her being on shore, it may be remarked that the Army and Navy Gazette is somewhat adrift as to its facts. Instead of £8,000, the cost of the repairs effected on the ironelad by the Hongkong and Whampos Dock Co. at Aberdeen was barely £6,000. This may or may not affect the argument of our London contemporary: but it is as well to give the true facts when it is possible to do so.

REFERENCE to the steamer lately lost in the Me literranean, the Messageries Maritimes agent courteously informs us that he is advised from Yokohama that she was sunk near Spizzia, (as we suggested at the time), the to the wicket again made 108, with aix give me back \$30, I have bought her." name of the str. re sining unknown. Mr wickets to fall, time not allowing the West Champeaux also places at our disposal a ship. to play the game out. Appended are the ping list from Marseilles, which shows all the lines run by the Valery Company to which the lost steamer belonged; but from those little can be deduced until the name of the steamer itself is before us.

Ar the rowing match this afternoon, between the whale boat of the U.S. corvette Alert and H.M.S. Victor Emanuel, a foul took place between the two, soon after starting, which nearly overturned the English tost. It was proposed by the Cockswain of the Alert's boat to return and start afreab, but some misunderstanding appears to have arison, as the Alert's crow continued their course after the Victor Emanuel's boat had turned back. It was afterwards arranged that the match should be considered drawn, and be rowed over again on Monday afternoon,

THE Public Laundry scheme hangs fire, we hear, because few of the many who are ready to take shares are willing to allow their names to be put on the directorate. This is not as it should be. The enterprise is unambitious in its aims and objects, and lowly in the matters it assumes to deal with | but it is an eminently useful under- 4 for 36. 5 for 45, 6 for 45, 7 for 49, 8 taking, a thorough public convenience. We hope to hear in another mouth (for with sports and holidays nothing can well by done of this kind within the next fortnight) that a provisionary directorate h a been secured, or failing that, that the scheme is to be carried out to the complete anccess it deserves by private enterprise,

We would call the attention of operagoers to the announcement in our advertisement columns that on Monday next the 18th inst, there will, be an extra performance for the benefit of Signor, and Signora 4 for 70. Ve'a, when Donisettl's opera of "Lucia de Lammermoor" will be produced, and when Maestro Vels will between the second and third note perform a grande fantajele orginale pour piolon, kindly assisted on the plane, by Signer F. Panizza. The prima donna Signora Milani da Vela lias carned so great popularity here during the short sesson now drawing to a Glose, and Maentro Vela has shown so great ability and been so instrumental in securing the success of the various operas which have been produced, that we have little hesitation in prophesying bumper house for their benefit,

THE squadron of cruisers blockading Hongkong will shortly be reinforced by a smart looking craft which was launched on Monday last at Kowloon Docks. The new cruiser is 108 feet long, with 18 feet beamschooner rigged-and will shortly be fitted with machinery, now about completed at the Dook Company's Works at the Patent Slip, which will enable her to travel at the rate of 13 miles an hour. The launch was witnessed by a number of spectators including several ladies, and as the vessel glided into the water Miss Thompson in the usual style christened her the Loo che. As a proof of the enterprise of our local companies it may be stated that the Loo chi had no sooner left the Kowloon slips, than the keel of a new vessel, a Light Ship for the Singapore Government, was laid down. This circumstance will doubtless furnish our Singapore friends with another occasion for wonder why the northern Colony falls in for most of the good things in shipping construction; and the Singapore Colonisi Secretary's "Mect of H.M.'s Hounds" is a thing to suspected leaning towards Hongkong and be devoured by those who have a taste its industries will again be noted. It is quite proper to stand up for one's rights; and if we saw Government work going from Rongkong to Singapore, a similar public spirit would no doubt be aroused. But the whole secret, we understand, is this, that Hongkong can execute such work cheaper if not better, than Singapore can do.

Times of December lat has the following : -It is with no ordinary feeling of regret that we record the death of Mr George Menzies Barclay, of the Trafalgar Estate, which occurred at an early hour this morn-WE are informed by the Agents of the ing, under circumstances which have cast deep gloom over the European community. The deceased gentleman came in yesterday from the country to bear his part in the Ball given by his countrymen in the Town Hall last night. He had been seen sitting on the parapet of the verandah of the Town Hall just as the guests were departing, and there can be no doubt that he fell. with the result of being killed instantanequaly-the posterior portion of his skull having been extensively fractured. Mr. Barclay has been for some years well and favourably known here, -first, as one of the staff of the Chartered Bank, and afterwards as assistant to Mr Knaggs on the Trafalgar estate. He was simple, honest, and kindly affectioned man, against whom no one bore or could bear malice. His was a nature which inspired with strong affection, and sil who know him well loved him much. Physically Mr Barclay was remarkable for power. He stood in that room last night, without doubt, the atrongest man in it, and now. alas, in the full flower of early prime, he is

HAWKING WITHOUT A LICENSE. Mak Awing, a boy of 11 years of agadmitted the charge of hawking fish on the 10th instant. The defendant was sent out to sell fish by his aunt Mak Atal, who was a poor woman whose husband-was in Annam, and who had an aged mother and the defendant depending on her exertions. The case was remanded till 13th instant.

OBSTRUCTING THE POLICE.

Luk Au, 25, Luk Ahu, 18, and Ho Ital 27, boatmen, were charged with obstructing a Police Constable in the execution of his duty on the 10th instant. P.C. Mahomed Bur gave evidence to the

effect that about half-past eleven yesterday morning he saw the three defendants and three other men rolling some carks in the Queen's Road near the Naval Yard. Wit ness told them that they must not roll the casks, but carry them. Defendants took no notice of the request, and witness seized the first defendant by the arm and again told him to carry the casks. First defendant said "what for," called out "tah" and took hold of witness coat and tore it, and on witness trying to blow his whistle, the second defendant snatched it away and also seized hold of his staff. The third defend some of the others struck him with their ists. An European gentleman who was passing at the time came to the constable's assistance, and first and second defendants were taken to the station, the third defend-

aut also following. The first defendant said that his master told him to roll some casks from the Commissariat to the Recreation Club; he was employed as a boatman by the Club, and was rolling the casks along when the constable interfered and struck him.

Second defendant made a similar statement, and denied that he had torn com plainant's coat or taken away his whistle

and staff. Third defendant said he was inside the Commissariat collecting the casks, when some one called out that some of his men were being taken into custody. He went out and wanted the constable to wait till he fetched his master, but he took the two defendants to the station.

The case was remanded to the 14th inst. bail in one security of \$25 for each de

My niece and I stopped on board the Chop that night. Second defendant said she had bought my niece from a man named Lal a Chan, and promised to find him. The first defendant was found during the night and taken into custody. He admitted having sold Lai a Ho to second defendant, he also said that the girl was his own niece and his brother's daughter; I never saw him before, he is no

relation of mine. The case was here remanded to 15th instant, bail for second defendant in two sureties of \$50 each.

BURGLARY. Young Akwai, 24, watchman, and three

others were charged with burgiariously breaking and entering house No. 18 Mong Kok Sni, and stealing therefrom money and clothing, to the value of \$300, also with assaulting the complainants, and also with receiving stolen property, on the 11th instant. Inspector Cameron, who had charge of the case, applied for a remand o and the prisoners were remanded till the 2 14th inst.

(Before the Hon. Ng Choy.)

The case of Ohung Achak, and Kwok Chan Lat. remanded from the 9th inst., on a charge of bringing four Annamite children into the Colony with intent to sell them. was again before the Court.

Evidence was given by Akum, one of the girls, to the effect that she was 15 years of age. Her parents live near Haiphong, and travelling in a north westerly direction. were very poor. Lest year witness was handed over to a woman who dealt in oplum to be her servant, and was afterwards taken by the woman to Halphong and hold to a man, whose name she did not know for \$9. Witness remained with the wife of this man in Haiphong for three months, and about ten days ago the man took her board a steamer and handed her over to first defendant to be brought to China First defendant was to take witness to the 108 native place of the man who had bought her, to become a servant of his mother. There was a boy with witness on board the steamer who was also handed over to first prisoner that he might go to the purchaser's mother. First prisoner had also a girl called Amui, who is his adopted daughter. On board the steamer witness saw the second prisoner with a girl whom she had not seen before, Witness wished to re turn to her parents at Annam. During the time she had been with the first prisoner, he had treated her well.

Some further evidence was given to similar effect by the two other girls, Amui and Ali, and the case was further remanded till the 14th instant. Bail as before.

SHANDHAL. (N. C. Daily News.):

Captain H. S. Goodfellow, of the C.1 Co.'s steamer Pekin, which arrived vester day (3rd) from Hankow, kindly informs us that when he passed the scene of the collision between the Kungwo and Hanyang on his way down, a chain or chains had been passed round the fore part of the former vessel, and operations for effecting a similar result astern were in progress. A large number of chests of tea that had formed part of her cargo were arranged along the bank of the river, apparently well plastered with mud. A chain had also been passed under the Hangang. One of the masts of the latter vessel-had fallen a little to the port side because part of the shrouds had carried away, but her fingstaffs, stem and stern, were in perfect line, viewed end The water-mark at Hankow when the Pekin left was nine feet four inthes.

H.M. S. Mosquito has arrived from Chefoo, and the Sheldraks from Foochow. The C. M. S. N. Co.'s steamer flacting which arrived yesterday (3rd) from Tientsin was detained six days by ice and the lownes of the waters in the Peiho River. Hacshin left Taku for Tientsin on the 29t ult., but it was not expected that she would able to reach her destination. antih was at Chefoo when the Hacting called there on her way down to Shanghai and it was thought that she would probably discharge her cargo at Taku. The weather experienced throughout the voyage by the Hacting was fine but cold.

Shortly before noon on Saturday (4th H.M.S. Moderie unmoored from the buoy opposite the Yetenfah to proceed to Woosung. From some reason or other, however, her engines-would not work, and she narrowly escaped being carried by the tide against H.M.S. Vigilant. Nearing that vessel, she let go her auchor, which fortunately brought her up; and no sooner had she become stationary than her engines commenced to work. The anchor was then mmediately weighed, and she proceeded

on her voyage to Woosning. The C.C.S.N. Co.'s steamer Tuku arrived from Tientsin yesterday (5th). She left hat port on the 2nd inst., and on her way down the Peiho she had now and then to break her way through the ice. It is ex nected that the stoumers which have left here during the last few days will not be able to go up the Peiho on account of the ice, and that they will have to discharge their cargoes either at Taku or Chefoo. It will be remembered that the Taku, on her last trip. left the same morning as the Pantah, which had to nut back on account of a breakage of her machinery, and sho also experienced very rough weather, as already reported in our columns. The Toku encountered the same gales and seas. and we hear that she sustained some damage to her deckhouses. Que tremendous sea that was shipped knocked the second officer off his legs and carried him into the waterway with such force that two or three of his ribs were broken. He was incapacitated from duty till he arrived at Tientsin. where he received medical treatment.

Engines were arriving to find that the tide was out, scarcely any water in the creek or anywhere else. Wells and tanks were soon sought out and almost as speedily sucked dry. And, though we are disposed to give Japanese firemen all the credit they deserve for their courage and perseverance, yet it is deplorable to witness the utter want of discrimination in the use of that most valuable article, whatever, at a fire; and the fact was most patent last evening that a directing head is as essential at a fire as in a battle. At every conflagration which has occurred in Yokohama for years past there has been a lamentable waste of energy and water, and last night was not an exception. Indeed, there is no question that the real cause of the fire not spreading much further than it did was due to the two steam fire engines, Relief and Victoria, which were stationed at the creek; and the exertions of a few foreigners who kept their wits about them and went to work systematically. That Messrs Pohl Frères and Dr Eldridge were not burnt out is due entirely to the praiseworthy efforts of Mr Smith, of the International Hotel, Mr Samuels, Mr Churchill and a gentleman whose name we are unacquainted with, but who was conspicuous by his coolness and intrenidity; while Messrs Pagdon, Kildoyle, Glennie, Dr. Wheeler and others worked with a right good will in another direction. With the enforced assistance of a few Japanese these gentlemen manfully battled with the flames. Buckets of water were passed from one to another and the roof of Messrs Pohl Fréres' thus kept completely saturated. Still it seemed as if all efforts would prove useless, when, atthe critical moment, up came Mr Favre-Brandt with his little hand engine and for the way in which they worked, and con- half-a-dozen men. CONSECRATION OF BISHOPS AT

ST. PAUL'S. Yesterday, being St. Simon and St. Jude's Day, three clergymen were presented for consecration as bishops at St. Paul's Cathedral-the Rev. Dr. George Evans Moule, as Bishop in Mid-China (Ningpo); the Canon Charles Percy Scott, B.A., as Bishop in North China and the Rev. Dr. Enos Nuttall as Bishop of Jamaica. There was a very large congregation at the Cathedral. In addition to the accommodation provided in the stalls of the choir, double rows of chairs were placed on each side, and a multitude of worshippers- were gathered under the dome and the surrounding space. Among the prelates present were the Archbishop of Canterbury, the Bishop of London, the Bishop of Winchester. the Bishop of Rochester, the Bishop of -Antigua, the Bishop of Trinidad, the Bishop of Nassau, Bishop Perry, Bishop and Bishop Piers. Claughton. The clergy assembled at the east end of the Cathedral about eleven o'clock, and a procession was comprising the vergers, the choristers, the gentlemen of the choir, the minor canons, the prebendaries, the canons resi-lentiary, the Proctor and Registrar, the Archdeacon of Middlesex, the Archdencon of Norwich (the prea-China, the Bishop-designate in North China, the Bishop-elect of Jamaica, the Vicar-General, the assistant bishops, the Bishop of London, being supported by the Archdeacon of London, the Apparitor-General, and Secretary, and the Archbishon of Canterbury. The Dean of St. Paul's was unavoidably absent. His Grace, accompanied by two assistant hishops, proceeded to the Holy Table : the other assistant bishops, the Bishopsdesignate, and the Bishop-elect to the seats in front of the pulpit, and the Dean, canons, and minor canons to their stalls. The Communion Service was read by the Archbishop of Canterbur and the Bishop of London. The Epistle was read by the Bishop of Rochester, and the Gospel by the Bishop of Winchester, the responses and Nicene Creed being sung to music by Dr. Stainer (in A). The Ven. Thomas Thomason Perowne, B.D., Archdencon of Norwich. preached, and chose for his text the words of St. Paul in his epistle to the Corinthians, "A great door and effectual is opened unto me, and there are many adversaries." Such were the words of the first and greatest of missionary bishops. The history of St. Paul was one of toil and effort and of unwearying energy. St. Paul had a manifest call to labour at Ephesus, which was then the emporium of the east and of the west. The great apostle had a call of opportunity and a cull of difficulty; and as it was in his time so was it with the Church now. One of them about to be consecrated was going forth to preside over the diocese of Jamaica. He would find that there difficulties as well as opportunities would await him. Church, since it was disestablished ten years ago, had laboured energetically and not unsuccessfully to support itself. The work was great. The Church had recognised the duty of self-support and of extension; but they were entitled to make an additional appeal to Christians in England for help, for a great calamity had overtaken the island in the month of August, by which churches, parsonages, schools, and property of every-kind had been injured. There were great difficulties to grapple with, and he hoped that the new Bishop of Jamaica would receive effectual aid from the Mother Church in his work. In the vast and ancient empire of China there was also to be found a great difficulty and a great opportunity, for these went hand in hand. In one district, where thirty vears ago three converts were baptised, eign Government, in the name of the the native Christians now numbered United States, how it should regulate its 4.000. China had been opened for the propagation of the Gospel of Christ, and there were many who were ready to receive it, but a great hindrance to Christian Missions existed in the trade in that noxious drug which England had forced upon the people of the land. Was it too much to ask that the people of this land should seek to abolish a traffic which had been no real boon to India, and had proved a curse to the Chinese people? DICTATOR COMLEY.

After the publication of the charges made by Mr Moreno, ex-Minister for Foreign Affairs of the Sandwich Islands, against Mr Comley, United States Minister at the Hawaiian Islands, the retaining of the latter in the diplomatic service would be a disgrace to our institutions, an insult to a friendly country and a direct violation of the laws which regulate the diplomatic service of the United States.

Whether Secretary Evarts takes pro per action in the case, or whether he allows it to pass unnoticed, the affair has already excited considerable indignation in official circles, and the popular verdict weighs heavily against Minister

Mr Moreno, an American citizen adoption, well-known and esteemed this country; went to the Sandwich Islands, and also for laying a tel graphic cable between the same places. Though partly successful in the establishment of asteamship line, his enterprise met with serious obstacles on the nar of the American missionaries and Miniater Comley, who seem to have formed clique to defeat his projects.

This unwarrantable action on the pa of the missionaries is accounted for by the fact that in the success of Moreno's enterprise they foresaw that certain worldly pursuits in which they are interested would suffer materially. We) are told that the missionaries who are sent abroad to infuse morality and religion into the hearts of King Kalaknun's subjects are as much addicted to the-wershiping of Mammon as any mortal ever was. Many of them are professional traders, some of whom have acquired considerable wealth from loaning a few dollars on mortgage to the natives and then foreclosing. They saw that if a steamship line was established between the Sandwich Islands and large foreign ports it would open the door to an influx of foreigners who would interfere with business schemes.

The defeat in the Hawaiian Legislature of the bill for the construction of the cable is attributed to Minister Comley. who used his influence against it. The King, seeing that his Ministers opposed the improvement of the country, dismissed his whole Cabinet and formed a new one, in which a place was offered to Mr Moreno as Minister for Foreign Affairs. This was a bitter morsel for Minister Comley, who threatened to dethrone King Kalakaua unless he discharged Minister Moreno.

After several unsuccessful attempts to accomplish his purpose, Minister Comley called personally upon the King and demanded Mr Moreno's resignation, on the ground that Mr Moreno had told him a lie-namely, that he was acquainted with several distinguished people in the United States-and that unless he was dismissed therefor, Comley would break off diplomatic relations. The King decided to suspend Mr Moreno in order that he might come to this country and establish the truthfulness of his assertion. Mr Moreno, who is now here, has not only verified his statements, but has also met with a cordial reception from his friends and admirers, especially in this city, where two years ago he gained considerable distinction as the leader in the movement to protect Italian children from the cruelty of the padroni.

Minister Comley's meddling in the domestic affairs of a foreign country is so entirely beyond the range of his duties that it cannot and must not be overlooked. The policy of the United States in regard to the Sandwich Islands is absolute abstinence from al intervention in its domestic affairs, and Minister Comley, in taking upon himsel the responsibility of dictating to a forinternal affairs, has placed the State Department in a very embarrassing position, from which it can only be relieved by revoking Comley's commission as United States Minister to the Hawaiian Islands .- New York Star,

Nothing can be more opposed to our ideas of an athlete or of training than a Japanese wrestler. have "chummed up" with numerous wrestlers, but never found one who had our idea-of muscle. Two men I had been examining once said it was their turn, and began mauling me about; but all they felt were the muscles known to the faculty as the trapezius and latissimus dorsi, which years of rowing had tolerably developed. They said those were just what an Al wrestler should have However, the umpire has preclaimed the names of two rivals, who enter the ring, strut round, and finally squat opposite each other. They go down on all-fours, their noses almost touching, each intent on the other's movements. Just when we expect them to begin, they get up, take a cup-full of water, which they blow over their bodies, and begin afresh, These preliminaries make Japanese wrestling very tedious occasionally Even when a good "clinch" is made is frequently stopped by the umpire there are ten fair grips in Japanese wrestling, so I suppose on such occasions one has an "unfair hoult." At last they are fairly started, and as each only a lungotee, we watch every nerve strain. Proportionately with the length of the struggle the excitement of the audience increases; each clan shouts to its representative. The umpire follows the men's movements with catlike vigilance until perhaps a hand slips, the eye toms. San Francisco. is off guard, or extra weight tells; one man is down and the bout over. The victor struts about; his clan howl joy; and one energetic individual throws his long robe into the ring, and yells challenges to the universe in general. He is calmed down, however, by his friends, for enthroned in a red covered stall sits the majesty of the law, represented by a policeman clad in an ape-like imitation of his European confrere. In this tournament the men left in at the last were the winners of three bouts in succession; the affair lasted some days, and on one occasion, when we just dropped in, the bouts were interrupted by heavy rain, which made the ring too slippery to give any hold to a naked foot. The umpire, in a speech full of apology, said the wrestling was over for the day, and as we passed out the doorkeeper gave us checks for the morrow, as we had not had our money's worth. We frequently went and saw a few good honest throws; but as a rule one man bored the other over the limit, which explains why weight should be so highly prized. By good luck we looked in, sad to say, one Sunday afternoon, just as the final heats were coming off. The place was naturally very crowded, and the people more excited. After some bouts. just pour passer le temps, between some "young gamesters" should call them in the west country, there entered the ring best men of each clan, the Tokio and the Satsuma. TRADE MARK. - Sanctioned by H. M's. Government.

HEALTH, STRENGTH, & ENERGY.

Trade Mark-PHOSPHODYNE. DISCOVERED AND SO NAMED, A.D. 1862,

BY R. D. LALOR, M. D. DR. LALOR'S PHOSPHODYNE in a Pure Solution of PHOSPHOROUS in combination with the Vegetable Alkaloids Quinice, Cypripedin, Xanthoxylin, &c., prepared by a Chemical process known only to DR, LALOR, producing a remarkably Elegant and Pleasant Tasted Preparation, equal to the best Wines, Prefectly free from Strychnia and all other Dangerously Active Drugs; superseding the numerous objectionable. forms of Phosphorous Pills, Pilnles, Oils, and other Nauscons Mixtures with which the Market has been flooded since the Phosphoric Treatment of Disbase was first made Public by DR. R. D. LALOR, in 1862. -

To Residents in India, China, and the Colonies, it will prove invaluable as a RELIABLE Liver Tonic and a Vitalizing Restorative.

This Phosphatic combination, the Wonder of Modern Chemistry, is pronounced by the most eminent members of the Medical profession to be unequalled for its power in replemishing and elaborating the Vitality of the Body; by its supplying all the essential constituents of the BLOOD, BRAIN, and NERVE SUBSTANCE; and for developing all the Powers and Functions of the system to the highest degree; by its being agreeable to the palate, and innocent in its action. While retaining its wonderful properties, it acts as a Specific, surpassing all the known THERAPEUTIC AGENTS of the PRESENT AGE, for the SPEEDY and PERMANENT CURE of all derangements of the Nervous and Blood Systems Nervous Prostration, General Debility, Mental and Physical Depression, Incapacity for Study or Business, Noises is the Head and Ears, Loss of Energy and Appetite, Indigestion and Liver Complaints, Flatulence, Nervous Funcies, Hypochondria, Nervous Debility in all its Stages, Loss of Memory, Softoning of the Brain, Paralysis, Affections of the Spinal Column, Lumbago, Sciutica, Affections of the Kidneys, Bladder, Urinary Deposits, &c., Ague, Spasme, Asthma, Consumption, Chronic Bronchitis, Scrofula and Skin Diseases, Rickets (in children), Wasting or Withering of the Muscles, Impaired Nutrition, Impoverished Blood, Premature Decline, and all morbid conditions of the system, dependent upon the delicioney of THE VITAL FORCES, whether arising from Climate, Brain Fag, or whatever

Dr. LALOR'S PHOSPHODYNE being a natural RESTORATIVE, its Energising Effects are refreshing sleep, relieves pain, calme the not followed by corresponding re-action; but are PERMANENT; and are frequently shown from the first day of its administration by a remarkable increase of Nervous Power, with a feeling of Vigour, Strength, and Comfort, to which the patient has long been unaccustomed. DR. LALOR'S PHOSPHODYNE gives back to the Human structure in a suitable form the Phosphoric or Lively Animating element of life which has been wasted, and exerts an important influence directly on the BRAIN, SPINAL MARROW, AND NERVOUS SYSTEM, of a Nutritive, Tonic, and Invigorating character; thereby checking all Wasting of the Vital Fluid, and the more Exhausting Processes of Life, maintaining that Buoyant Energy of the Brain and Muscular System which renders the MIND CHEERFUL. HAPPY, BRILLIANT, and ENERGETIC; entirely overcoming that Dull, Inactive and Sluggish disposition which many persons experience in all heir actions. A Marvellons Restorative for Brain Toilers, Clergymen, Business Men, and all who are engaged in the Competitive Strug-

PHOSPHODYNE; the Antidote for Climatic Disease. The Remedial properties of DR LALOR'S PHOSPHODYNE have spread its' fame throughout every Nation and Country in the World, the natural outcome of which is that the sale has now become enormous in India, Chins, Africa, and other Hot Climates. This increased demand is attributable to the fact of its possessing in the most perfectly assimilable form the essential Vitalising properties of PHUSPHORUS, which resumates the Exhausted functions of Life when impaired b Heat or other causes. A very large number of Testimonials from all parts of the World freely offered from Distinguished Families, Private Persons, Military, Naval, Scientific and Professional Men who are well known, speak of its marvellous powers in Nervous Debility, WANT OF STAMINA, FEVERS, MALARIOUS DIS-EASES, and as a LIVER TONIC.

PUBLIC NOTICE AND WARNING .- To Medicine Vendors and the Public in Great Britain, India, China, and the Colonies. - DR. LALOR'S PHOSPHODYNE is the only Medicine bearing the name PHOSPHODYNE that has the Sanction of the British Government. and for which Her Majesty's Registrar of "Trade Marks" has granted Certificates to DR. DR. J. COLLIS BROWNE'S CHLORODYNE

(Ex Army Med. Staff) IS THE ORIGINAL AND ONLY

GENUINE. CAUTION. - Vice-Chancellor Sir W. P. Wood stated that Dr. Collis Browne was undoubtedly the Inventor of Chlorodyne, that the story of the Defendant, Freeman, being the Inventor was deliberately untrue; which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's, -See Times, July 12, 1864. The public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE. REMEDIAL USES AND ACTION This invaluable remedy produces quiet, system, restores the deranged functions, and stimulates healthy action of the scoretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thou sands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most exten-

CHLORODENE is admitted by the profession to be the most wonderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for

coughs, consumption, bronchitis, aethma. UHLORODYNE effectually checks and arrests those too often fatal diseasesdiphtheris, fever, croup, ague. UHLORODYNE acts like a charm in diar rhoss, and is the only specific in cholers and dysentery.

CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasma. CHLORODYNE is the only pallistive i neuralgia, rheumatism, goul, cancer, toothache, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS. The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne .-

See Lancet, Dec. 31, 1864. From A. Montgomery, Esq., Iste Inspector of Hospitals, Bombay ;- "Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholers in which Dr. J. Collis BROWNE'S UNLULODYNE was administered, the patient recovered. Extract from the General Board of

Health, London, as to its efficacy in Cholers. -" So strougly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases." See leading article, Pharmaceutical Jour-

nal, August 1, 1869, which states that Dr. J. Collis Browne was the inventor of Chloredyne; that it is always right to use his preparation when Chlorodyne is ordered. CAUTION .- None genutue without the words "Dr. J. Collis Browns" on the Government Stamp. Overwhelming medical Sole Manufacturer-

THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and atyle, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and

Queries on the Ear East, is issued at intervals of two months, each number containing about 60 octave pages, occasionally Ulustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences,

The publication includes, papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manuers and Gustoms, Natural History, Religion, &c.; &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each humber. Original contributions in Chinese, Lafin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a resume in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review

Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the waiter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Revisio. It is a sixty paged, hi-monthly, reportery of what scholars are ascertaining about China. The lecture on Chinasa Poetry in this volume is alone worth the price of the Leview. Address China Review, Soughoug.—Norther Christian Edvocate (U.S.)

lowing notice of the China Review; - "Th le the title of a publication, the first nural of which has lately reached us from flon. kong, where it has been not on foot an some respects a continuation of Notes an Queries on China and Japan, the extinction of which useful scried a year or two ago Labeen much regretted in Europe as well, in China. The present publication, judgic by the number now before us, is intended occupy a position, as regards China and ill neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of a tention that has been bestewed of hite yo upon the investigation of Chinese literar us antiquities, and social developments, 'to s nothing of linguistic studies, has led to accumulation of important stores of infor ation, rendering some such chane al of pr licity as is now provided extre mely des able; and contributions of weach intermay fairly be looked for from the memb of the foreign consular services, the Univ Customs' corps, and the missionary bud among whom a high d'egree of Unine scholarship is now ass' duously cultivate and who are severally ropresented in the number of the how ew by papers hig . creditable to their respective authors. a paper on Dr. Legge's She King, by Rev. E. J. Eitel, to which the place honour is deservedly given, an excell summary is presented of the chronolog problems and arguments involved in con-nexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese post-statesman of the seventh century, Su Tung-p'o, by Mr. E. U. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the China Review may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will

form a substantial octavo magazine,

This paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hong-kong, or Seven Dollars Fifty Cents including postage to Coast ports.

It is the first Chinese Newspaper Ever

sesued under purely native direction. The

chief support of the paper is of course derived from the native community, amongst whom also are to be found the guaranters and securities necessary to place it on a business and legal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan,—from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese,—consider themselves justified in guaranteeing an ultimate circulation of between 8,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and

The field open to a paper of this description—conducted by native efforts, but progressive and anti-obstructive in tone—in almost limitless. It on the one hand commands Chinese belief and interest while on the other deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials with Local, Shipping, and Commercial News and Advertisements.
